

# HELP CREATE A COMIC STRIP

featuring Captain Mercaptan<sup>SM</sup> and his sidekicks.

HERE IS EVERYTHING  
YOU NEED TO ENTER  
FOR 2017.

[BGEGASHERO.COM](http://BGEGASHERO.COM)

**BGE**

An Exelon Company

[THAT'S  
SMART  
ENERGY]<sup>SM</sup>

## PREPARING YOUR ENTRY

The creativity of your students could help your school win \$10,000.

### HERE'S HOW IT WORKS:

#### 1. Discuss gas safety and create a safety comic strip

Review gas safety with your class.

- ★ Read the Marvel® comic book featuring Captain Mercaptan. The link to the comic book can be found at **BGEGasHero.com**.
- ★ Review the gas safety information on page 8 of this entry kit.
- ★ Complement your natural gas safety lesson plan with free curriculum-based games, teacher's guides and activities that support Maryland science standards, available at **BGE-Education.com**.

#### 2. Work with your class on a safety message and sketch.

- ★ Encourage your students to agree on one natural gas safety message based on what they've learned from the comic book.
- ★ Ask them to incorporate that message in a three panel comic strip using the Captain Mercaptan superhero theme.
- ★ Ask them to choose one or more of the supplied superhero images from page 6 of this entry kit as the focal point of the comic strip. Re-size the digital files as needed.
- ★ Artwork should NOT include images of any Marvel® characters including IRON MAN™, Pepper Potts and Killjoy. A complete checklist for eligible entries is on page 3.
- ★ Have your class select the best student's comic strip to submit for entry.
- ★ Encourage creativity! Have fun!

### Use BGE's free classroom resources to teach gas safety.

Public and private elementary schools in the BGE service area are also welcome to schedule free, in-person safety presentations from BGE safety experts who arrive in real utility bucket trucks or other service vehicles. To schedule a presentation, please email our community affairs team at **BGEEducationalOutreach@BGE.COM**.

The Captain Mercaptan website, **BGEGasHero.com**, includes a link to free educational materials on natural gas safety provided through the e-Smart Kids website, **BGE-Education.com**. Use these free resources and information provided in this entry kit to develop classroom lessons, teacher guides, experiments, games, and worksheets.

#### 3. Prepare your entry

- ★ Scan the safety comic strip your class selects to upload
- ★ Use the online entry form at **BGEGasHero.com**.
- ★ Entry should include the chosen safety message and safety comic strip and description of your school enrichment project.
- ★ Illustration file types accepted: jpg and png.
- ★ Mail waiver form(s), completed by parent or guardian of student with the submitted illustration, to:  
**BGE Attn: S. Leach, 110 W. Fayette Street,  
Suite 900, Baltimore, MD 21201**  
or email to: **GasHero@BGE.COM**

NOTE: All signed waivers and entries must be received by November 13, 2017.

**SEND YOUR ENTRY BETWEEN AUG. 28 – NOV. 13, 2017**

### Contest timeline

An Exelon Company

**BGEGASHERO.COM**

## WINNERS ANNOUNCED IN JANUARY

Find out in January 2018 which entries won the following awards:

### **₡5,000 BGE CAPTAIN'S CHOICE AWARD**

overall top winner among the HERO awards, meaning this school would receive a total of \$10,000.

### **₡5,000 BGE HERO AWARD**

one winner in each grade (K-5).

### **BGE SPOTLIGHT AWARD**

backpacks and safety gear to the entry with the most votes during the online public voting phase.

### **EARLY CONTEST ENTRY OFFER**

a portable power bank will be given to the first five facilitators who submit contest entries.

If you have questions about The Adventures of Captain Mercaptan and eligibility, please review the rules and regulations and FAQs. Additional questions may be emailed to **GasHero@BGE.COM**.

### **₡500 BGE TEACHER AWARD**

to the facilitator of the BGE Captain's Choice award winner to purchase classroom supplies.

### **₡100 BGE TEACHER AWARDS**

to the facilitators of the BGE Hero Award winning classes to purchase classroom supplies.

An Exelon Company

**BGEGASHERO.COM**

## ELIGIBILITY CHECKLIST

Does your entry have what it takes to be super?  
Run through this quick checklist to make sure.

### Your entry SHOULD:

- ☐ Only be submitted if your school is located within BGE's service area.
- ☐ Be completed by only those students in your classroom (grades K–5), with no outside help.
- ☐ Include a contact for your entry, who can be a teacher or administrator from the school.
- ☐ Include a brief description of how prize money would be used to enrich the school (see contest rules for more details).
- ☐ Include illustrations that can be completed in any hand-drawn medium, but please consider that entered illustrations must be scanned and uploaded to the website for voting.
- ☐ Include illustrations that are bold and will scan clearly.
- ☐ File types accepted: jpg and png.
- ☐ Include a signed waiver (from parents/guardians) for the student whose comic strip you submit with your entry. Waiver forms are included in this entry kit.  
Form must be mailed to:  
**BGE Attn: S. Leach, 110 W. Fayette St.  
Suite 900, Baltimore, MD 21201**  
Or emailed to **GasHero@BGE.COM**  
NOTE: All signed waivers must be received by November 13, 2017.
- ☐ Be uploaded to the **BGEGasHero.com** website by 11:59 pm on November 13, 2017.
- ☐ Include one or more of the supplied images of Captain Mercaptan, Sunny and/or Piper.

### Your entry SHOULD NOT:

- ☐ Depict unsafe natural gas practices, including but not limited to lighting matches, illustrating an explosion or showing someone passing out when natural gas is present.
- ☐ Include Marvel® characters from the comic book, including IRON MAN™, Pepper Potts and Killjoy.
- ☐ Include illustrations that are created in whole or part using computer or other electronic means.
- ☐ Contain any personal identification, such as personal names, email addresses or street addresses.
- ☐ Contain copyrighted material owned by others (including logos, words, and art, etc.)
- ☐ Include illustrations from any children or employees of BGE, Weber Shandwick, the Baltimore Community Foundation and their respective parents, subsidiaries, retailers, affiliates, promotion and advertising agencies (collectively, the "Contest Entities") and members of their immediate families (spouse, mother, father, sister, brother, ward, daughter or son and their respective spouses, regardless of where they reside) and persons living in the same household of such employees, whether or not related.

## PROMPTS

Tips for creating your comic strip:

## Surround your safety heroes with adventure!

Once you and your class are finished learning and talking about natural gas safety, it's time to get to work on your safety message and three panel comic strip. We've supplied artwork of all three superheroes—Captain Mercaptan, Piper and Sunny—in various positions for your students to use as they focus on their artwork. They should use what they've learned about gas safety and put their imaginations to work to create their comic strips. Here are some things to consider.

**BRAINSTORM** safety messages. It could come from the comic book or other safety lessons you discuss in class.

**CONSIDER** what kind of story would best illustrate your class' chosen message. Quick sketches could serve as layouts before your students begin their final versions.

**CHOOSE** safety superheroes from the images provided. Are they posing as a group? Are they in action? Are they hiding in a corner?

**THINK** about using other hand-drawn characters and scenery in the comic strip.

## ALSO REMEMBER:

- ★ Your students can use any hand-drawn medium they wish for their sketches, but make sure it can be scanned for submission.
- ★ Don't have your students overcrowd the panels. The bigger and bolder the elements, the better they will be seen and understood.
- ★ Use the handy eligibility checklist on page 3 to make sure the entry has the best chance of winning.
- ★ Make selecting your class' entry fun! Here are some fun ways to decide with entry gets uploaded:
  - Hold a class poll
  - Ask parents via your school newsletter
  - Utilize your school's morning announcements
  - Conduct a poll during school breakfast or lunch service
- ★ After selecting your class winning comic strip, upload your entry to [BGEGasHero.com](http://BGEGasHero.com) by midnight on November 13. Please mail class waivers separately.
- ★ Select one or more of the superhero images (included with this entry kit) as the focal point of your entry. Resize as necessary to fit your needs.
- ★ Do not cut and paste except for the supplied super hero images.
- ★ Do not use any logos or brands, or use computer software in any aspect of your entry.

## GOOD LUCK!

## FAQS

We've drawn up some frequently asked questions... and the answers, of course!

### Q: HOW DO I KNOW IF MY SCHOOL IS ELIGIBLE?

**A:** The Adventures of Captain Mercaptan is open to all public and private schools designated as a 501(c)3, grades K–5, that receive service from BGE, regardless of your gas or electricity supplier.

### Q: CAN MORE THAN ONE CLASSROOM FROM A SCHOOL PARTICIPATE?

**A:** Yes. There is no limit to the number of classes from a single school that may participate in the contest, as long as each class has a point of contact who is either a teacher or administrator from that school. Multiple entries from the same school will be identified by the student's first name and grade level.

### Q: CAN WE USE COMPUTERS TO DRAW OUR SAFETY SKETCHES?

**A:** No computer generated or aided illustrations will be accepted. Use only hand-drawn art medium such as crayons, pencils, watercolor etc., but please keep in mind that you'll be scanning your comic strip for submission, so give your kids the best opportunity to produce a clear, colorful entry!

### Q: WHAT IF OUR CONTEST ENTRY IS DEEMED INELIGIBLE?

**A:** If you upload your entry and it does not meet eligibility requirements (see eligibility checklist in this entry kit), your class contact will be notified by email with the specific reasons the entry did not meet eligibility. You may then make the necessary revisions and resubmit, as long as you can meet the submission deadline.

### Q: WHO CAN VOTE FOR OUR ENTRY ONLINE?

**A:** During the voting period from August 28 to November 13, 2017, all valid entries will be posted on the contest website and anyone over 13 years old can vote up to three times per day. The 10 entries from each grade with the most votes from our public voting phase will advance to the final judging phase.

### Q: HOW IMPORTANT IS ONLINE PUBLIC VOTING

**A:** Online public voting is used to determine which entries will advance to the official judging period. It is important to note: winners are decided based on the scores they receive during the official judging period, not based on popularity.

### Q: HOW WILL THE FINALISTS BE JUDGED?

**A:** A panel of judges will score the finalists based on the following criteria: overall creativity (45%); demonstrated understanding of natural gas safety (10%); and illustration artistry (45%).

### Q: WHERE CAN OUR CLASS LEARN MORE ABOUT NATURAL GAS SAFETY?

**A:** BGE strongly encourages educators to take advantage of a wealth of free information available on the e-Smart Kids website ([BGE-Education.com](http://BGE-Education.com)). BGE values safety. Our goal with this contest is to encourage natural gas safety for people of all ages and teach children to be aware of potential hazards surrounding natural gas. You'll find a direct link to classroom learning materials on the contest website.

### Q: WHAT IF I HAVE QUESTIONS ABOUT THE RULES AND REGULATIONS?

**A:** First, carefully review the contest description, FAQs and the official rules and regulations. If you still have questions, email us at [GasHero@BGE.COM](mailto:GasHero@BGE.COM). We will be happy to clarify any of the rules and regulations.

### Q: DOES BGE OFFER FREE IN-SCHOOL SAFETY PRESENTATIONS?

**A:** Yes. Public and private elementary schools in the BGE service area can schedule free in-school safety presentations. To schedule a presentation, please email our community affairs team at [BGEEducationalOutreach.com](mailto:BGEEducationalOutreach.com).

# AN INTRODUCTION TO GAS SAFETY

Important information your students should know.

## What is natural gas?

Natural gas is a fuel that's used to heat buildings, cook food, dry clothes, heat water and even help produce electricity. It's sometimes called "gas" for short, but don't confuse it with the gasoline that runs your parents' cars. Gasoline is a liquid, while natural gas is...you guessed it...a gas! In fact, natural gas is really a mixture of gases that formed

from the decayed remains of ancient plants and animals buried deep in the earth. The main ingredient in natural gas is methane. Methane is colorless, odorless and lighter than air. It gives off a lot of heat and light when it burns, but doesn't produce smoke. That makes natural gas a good fuel for use in the home. Today, more than half the homes in the U.S. are heated by natural gas.

## Carbon monoxide safety

### What is carbon monoxide?

Carbon monoxide is a poisonous gas that is produced from burning different types of fuel, including natural gas, propane, charcoal, coal, wood, oil and kerosene. It is also produced by products that have engines, such as cars, lawn mowers and generators (that use these fuels).

### Why is it dangerous?

Carbon monoxide is dangerous for two important reasons:

- ★ Exposure to carbon monoxide gas can cause headaches, dizziness, weakness, nausea, vomiting, and loss of muscle control. Prolonged exposure leads to unconsciousness, brain damage, or even death.
- ★ Carbon monoxide is tasteless, odorless and colorless, making it virtually undetectable to you. As a result, you can be unaware of exposure to carbon monoxide until symptoms start to show.

To prevent accidental carbon monoxide poisoning, keep the following tips in mind:

- ★ Never stay in an enclosed area without fresh air where a carbon monoxide-producing engine is running. Examples include a vehicle running in a closed garage, a grill operating indoors, or an oven left on for warmth.
- ★ Remind your parents to install carbon monoxide detectors above your home's furnace and outside bedrooms.

## What is mercaptan?

**mer.cap.tan** (m r'Kap,tan) *noun*

Natural gas is odorless, colorless and tasteless. To make it easier to detect, utilities like BGE add a harmless chemical, called mercaptan, to natural gas to make it smell. Many people describe the odor of mercaptan as similar to sulfur or rotten eggs.

## Detecting natural gas

It's important that everyone be able to recognize natural gas and know what to do in case it ever gets outside pipes and appliances. Recognizing natural gas is easy:

### USE YOUR NOSE

Mercaptan is an additive BGE puts in natural gas to give it a rotten egg smell.

### USE YOUR EARS

Listen for hissing, blowing or roaring sounds of gas escaping.

### USE YOUR EYES

Look for dirt being blown into the air, dead plants or grass in an otherwise green area, fire coming from the ground or water bubbling or being blown into the air.

## If you detect natural gas:

- ★ Leave the vicinity or building, go to a safe place and call BGE at **800.685.0123** or call 911.
- ★ Do not use anything that can cause a flame or spark, including phones, mobile phones, light switches, thermostats, matches or lighters because these can ignite natural gas.
- ★ Do not attempt to find or fix the source of the leak.

## Winter safety for gas meters

If the gas meter is outside of your home, please tell your parents to keep ice and snow off of it. Make sure you or your parents don't melt ice or snow with a heat source like a hair dryer, chip the ice away or use a shovel to scrape it off. If the meter becomes encased in ice, please call BGE at **800.685.0123** and they can help.

**BGEGASHERO.COM**

## NEW LESSON PLANS

We have included lesson plans that align with Maryland State STEM Standards of Practice. STEM education integrates the content and skills of science technology, engineering and mathematics into the classroom. Through STEM education, students are challenged to answer complex questions, investigate global issues, solve real world problems and meet global challenges through hands-on, relevant, inquiry-based learning experiences.

The lesson plans included in this entry kit are designed to help teachers facilitate student engagement, incite questions and lead students through problem-solving related to natural gas topics. We hope to inspire the next generation of scientists, engineers and mathematicians.

**BGEGASHERO.COM**

# KINDERGARTEN LESSON PLAN:

## Detecting Natural Gas

### Learning Objectives:

- ★ Name the grade level appropriate concepts related to natural gas safety
- ★ Draw or write symbols learned from the natural gas safety lesson plan
- ★ Retell natural gas safety content to answer questions or solve problems
- ★ Participate in conversations with adults and peers about natural gas safety

### ACTIVITY 1 : HOW WE USE NATURAL GAS

#### Materials

✓ Kindergarten Activity Sheet

✓ Captain Mercaptan Entry Kit

✓ Pencils, Markers or Crayons

✓ Additional websites and resources listed below

✓ American Gas Association Video\*

#### Directions

- 1 Ask your students to think independently about all the appliances their families use at home. Have them turn to a partner to share all the appliances they use while at home.
- 2 Next, ask them if they know how many of the appliances they use at home work?
- 3 After taking a few responses from the class, play the American Gas Association *Kids and Natural Gas Safety* video.
- 4 Following the video ask the students if they can list all the things natural gas could power in their homes.
- 5 Finally, using the activity sheet, have the students circle appliances that might use natural gas in their home.

\* Available at [BGEGasHero.com](http://BGEGasHero.com)

An Exelon Company

**BGEGASHERO.COM**

# KINDERGARTEN LESSON PLAN:

## Detecting Natural Gas

### ACTIVITY 2 : HOW TO DETECT NATURAL GAS

#### Materials

✓ Kindergarten Activity Sheet

✓ Detect Natural Gas Card

✓ Captain Mercaptan Entry Kit

✓ Pencils, Markers or Crayons

#### Directions

- 1 Addressing the entire class, tell them they are going to learn how to use their senses to detect natural gas. Ask the class as a group if they can list their five senses.
- 2 Review the five senses and what they are with your class.
- 3 Pass around the Detect Natural Gas Card (provided in the entry kit) to your class. Read the tips on the card aloud. As you read each tip, ask your students to point to their nose, ears and eyes.
- 4 To reinforce how the students can use their senses to detect natural gas use the Hear, See, Smell activity included in the activity sheet to have the children trace the shape of the nose, eyes and ears.

### ACTIVITY 3 : CREATE YOUR CAPTAIN MERCAPTAN ENTRY

#### Materials

✓ Marvel® A Natural Team Comic Book\*

✓ Pencils, Markers or Crayons

✓ Captain Mercaptan Entry Kit

#### Directions

- 1 Read the Marvel® A Natural Team comic book to your class. If you have access to a digital projector, flip through the comic book on your screen.
- 2 After reading the Marvel® A Natural Team comic book, work with the class to develop one safety message that all students can use as inspiration for their comic strips.
- 3 Have each student draw a three panel comic strip based on the safety message developed by the class.
- 4 Once all students have had the chance to complete their comic strips, post all strips to your chalkboard or bulletin board and have the students vote for their favorite. Upload the class' favorite entry to the contest site – **BGEGasHero.com**.

## KINDERGARTEN ACTIVITY:

### Detecting Natural Gas

#### ACTIVITY 1: WHICH APPLIANCES USE GAS?

There are many things in your home that require natural gas to work. Circle the 3 items that require natural gas:

Hot water  
heater

Refrigerator

Stove

Lamp

Dryer

TV

#### ACTIVITY 2: CONNECT THE DOTS

What senses do you use to detect a natural gas leak?

An Exelon Company

[BGEGASHERO.COM](http://BGEGASHERO.COM)

# KINDERGARTEN LESSON PLAN:

## Detecting Natural Gas

### Assessment

After utilizing the plans included in this Kindergarten Lesson Plan packet, your class will have gained many takeaways about natural gas and natural gas safety. As a final activity, work with the class to answer the assessment questions included below.

1. What senses can you use to detect natural gas?
  - a. Taste
  - b. Smell
  - c. Sight
  - d. Hearing
2. What color does Captain Mercaptan's hair turn when there is a natural gas leak?
  - a. Red
  - b. Yellow
  - c. Orange
  - d. Green
3. Mercaptan is the chemical added to natural gas to make a leak detectable. What does mercaptan smell like?
  - a. Your little brother
  - b. Rotten eggs
  - c. Candy
  - d. Cheese
4. If you detect natural gas what should you do?
  - a. Try to find the source of the leak
  - b. Use matches or turn anything on, even a cell phone
  - c. Find a safe place outside and call BGE, or tell an adult to call, 800.685.0123
  - d. Ignore the smell, it's probably nothing
5. How might natural gas be used safely in your home?
  - a. Heating the water in your shower or bathtub
  - b. Heating your stove to help your parents cook
  - c. Heating your home in the winter
  - d. All of the above

**BGEGASHERO.COM**

# FIRST/SECOND GRADE LESSON PLAN:

## Detecting Natural Gas

### Learning Objectives:

- ★ Recall and apply concepts presented in grade level appropriate natural gas lesson plan
- ★ Make connections between natural gas safety content and real life
- ★ Determine how science, technology, engineering and math is used throughout the natural gas delivery process
- ★ Identify and apply science practices when answering and solving complex natural gas related questions
- ★ Demonstrate the ability to connect multiple types of content when answering natural gas safety related questions

### ACTIVITY 1 : HOW WE USE NATURAL GAS

#### Materials

✓ First Grade Activity Sheet

✓ Additional websites and resources listed below

✓ Captain Mercaptan Entry Kit

✓ American Gas Association Video\*

✓ Pencils, Markers or Crayons

#### Directions

- 1 Let your class know they'll learn how natural gas safety is used in their home.
- 2 Next, ask the students what appliances use natural gas in their home.
- 3 After taking a few responses from the class, play the American Gas Association *Kids and Natural Gas Safety* video.
- 4 Finally, have the students complete the word scramble included in the activity sheet.

✓ Captain Mercaptan Entry Kit

#### Directions

- 1 Have each student read the Marvel® A Natural Team comic book found online at **BGEgashero.com**. If students don't have independent access to a tablet or computer, you can read the comic book as a group from a projector.
- 2 After reading the Marvel® A Natural Team comic book featuring Captain Mercaptan, have each student develop a safety message they learned from the contest.
- 3 Have each student draw a three panel comic strip inspired by the safety message they developed.
- 4 Once all students have had the chance to complete their comic strips, have fun selecting which entry your class will choose to upload. For some tips on how to make the selection process fun, check out page 4 in the entry kit.
- 5 Upload the class' favorite entry to the contest site – **BGEGasHero.com**

\* Available at BGEGasHero.com

# THIRD/FOURTH/FIFTH GRADE LESSON PLAN:

## Detecting Natural Gas

### Assessment

After utilizing the plans included in this Third, Fourth, and Fifth Grade Lesson Plan packet, your class will have gained many takeaways about natural gas and natural gas safety. As a final activity, work with the class to answer the assessment questions listed below.

1. What senses can you use to detect natural gas?
  - a. Taste
  - b. Smell
  - c. Sight
  - d. Hearing
2. What color does Captain Mercaptan's hair turn when there is a natural gas leak?
  - a. Red
  - b. Yellow
  - c. Orange
  - d. Green
3. Mercaptan is the chemical added to natural gas to make a leak detectable. What does mercaptan smell like?
  - a. Your little brother
  - b. Rotten eggs
  - c. Candy
  - d. Cheese
4. If you detect natural gas what should you do?
  - a. Try to find the source of the leak
  - b. Use matches or turn anything on, even a cell phone
  - c. Find a safe place outside and call BGE, or tell an adult to call, 800.685.0123
  - d. Ignore the smell, it's probably nothing
5. How might natural gas be used safely in your home?
  - a. Heating the water in your shower or bathtub
  - b. Heating your stove to help your parents cook
  - c. Heating your home in the winter
  - d. All of the above

## DETECT NATURAL GAS CARD

Use this card to complete the activities.

Here's how you can save the day if natural gas is leaking.

### FOR SIGNS OF NATURAL GAS:

**USE YOUR NOSE:** Mercaptan is an additive BGE puts in natural gas to give it a rotten egg smell.

**USE YOUR EARS:** Listen for hissing, blowing or roaring sounds of gas escaping.

**USE YOUR EYES:** Look for dirt being blown into the air, dead plants or grass in an otherwise green area,

fire coming from the ground or water bubbling or being blown into the air.

### IF YOU DETECT NATURAL GAS, LEAVE IMMEDIATELY

- ✗ DON'T try to find the source of the leak
- ✗ DON'T use matches, or turn anything on, even a cell phone
- ✓ Find a safe place outside and call BGE, or tell an adult to call, **800.685.0123**

BGE will respond quickly. There is no charge to investigate a gas leak.
